SCANPAL™ EDA5S

Mobile Computer

ScanPal[™] EDA5S is an enterprise-class mobile computer, which is slimmer and lighter with fashion appearance, that provides reliable and secure connectivity between frontline workers and back-end business systems. It is designed for use in retail, transportation, and logistics, especially for luxury fashion retail market.

EDA5S is Honeywell's new ScanPal series PDA equipped with the latest Qualcomm[®] Snapdragon[™] octa-core 2.0GHz processor and robust wireless connectivity through NFC, Wi-Fi 5, Bluetooth 5.0 and 4G LTE communication.

A prominent 5.5 inch gorilla glass touch screen interface and ergonomic industrial design help to greatly improve user comfort and experience. Its lightweight and slim design means that users can easily operate the device with one hand, carry it in pockets, and stay comfortable all day. And its fashion appearance can bring better experience to work in any place in any time.

The 13-megapixel rear camera allows users to capture high-resolution images for quality image documentation while the 5-megapixel front camera allows users to engage in video communication.

The EDA5S incorporates the all-new and powerful Honeywell S0703 scan engine which enables accurate and fast reading even of damaged or incomplete barcodes.

Outfitted with a rugged housing and IP67 rated sealing, the EDA5S can operate under rough usage and demanding environmental conditions. A 3060mAh battery provides 8 hours of power without interruption. The battery is also easily removable and supports quick charge 3.0.

Android 11, 5.5-inch CGG touchscreen, Qualcomm® Snapdragon™ octa-core 2.0GHz processor, Wi-Fi 5, Bluetooth 5.0, 4G LTE connectivity, one nano SIM plus one eSIM, IP67.

The EDA5S (WWAN version) supports one nano SIM and one eSIM simultaneously. An eSIM enables simple management of subscriptions to different mobile network carriers, thereby allowing easy switch between carriers without the need to manage multiple physical SIM cards.

The EDA5S is built on Android 11 and can be upgraded to future Android releases, eliminating maintenance issues and ensuring longterm feature support. It is validated under AER (Android Enterprise Recommended), a Google-led initiative that helps businesses confidently select, deploy, and manage Android devices and services best suited to their needs.

FEATURES AND BENEFITS

Powerful hardware platform based on the Qualcomm SM6115 octa-core processor, 3GB/32GB, 4GB/64GB memory options to handle different workloads.

Large 5.5" full touch display screen. Slimmer and lightweight for pocket-fitting, and fashion appearance with IP67 design provides reliability with better experience.

Multiple fast connections by WWAN (Nano and eSIM) or WLAN, Bluetooth 5.0, NFC, GMS and 4G LTE

Removable 3060 mAh lithiumion battery that can last for more than 8 hours of straight use without interruption.

Easily scan barcodes, even damaged ones, with the Honeywell enterprise level SOT03 imager. Document images with the 13MP autofocus camera and make video calls with the 5MP front camera.
